Introduction

- Municipality Ormož is known for its hardworking and caring people, which are co-creating development of economy. There is a day-to-day cooperation between the economic and public sectors creates a positive climate for the further development of the economy, the cooperation on all sides and industries is crucial for development.
- A wine tourist road leads through the Ormoške gorice, which can offer tourists many pleasures, if only they know how to use them properly. Because the finest wines are grown in the area of the Ormoške gorice.

Ormož stands out with many extraordinary goods, with the development of the economy, excellent cuisine, unspoiled nature and hearty, open and diligent people.

The municipality of Ormož is part of Prlekija, a region between the Mura and the Drava. It lies between the Slovenian-Croatian border and Gornja Radgona and Ptuj and covers a wider area with plains and hills. Archaeological discoveries make the place one of the largest medieval prehistoric sites. Its location above the Drava with its beautifully landscaped mansion, park, church and urban planning deserves a visit and a longer stop with a visit to the local museum collection. Many buildings are historically important, such as the Turkish, city and Hungarian gates. Sports park with a swimmingpool, parks and other green areas are beautifully landscaped. Many monuments are exemplary maintained.

Prlekija is famous as the country with the most sunny days in our country, as the sun shines here as much as 200 days a year, which is known in the cuisine and the sunny character of the people.
